To Marie Marks,

It has been roughly one month without any response from your office on my FOIA request; this is not consistent with other FOIAs that I have filed where the office responds with the latest delay it will take to answer and I find the silence of the NOAA unprofessional and an abridgement of my rights as a United States citizen.

I submit here my updated FOIA request: I want records beginning on April 20, 2010 to the present date April 18, 2011 and inclusive of all dates in between the two fore mentioned dates of all permits issued for dispersants used in the Gulf of Mexico, in all of the states that have shores on the Gulf of Mexico, near their shores and in their waterways. I need the information to include for each permit: type of dispersant used for the specific type of oil cited, where the dispersant was used and how much dispersant was applied.

Per the laws governing an FOIA request I expect a response in the proscribed timely manner, however NOAA has sent no reply.

I am in contact with my representative to Congress and of course alerting other contacts with environmental organizations and my local elected officials to your office's lack of professionalism which I can only perceive as willful and therefore detrimental to the general welfare of the citizens of the United States of America and in particular to residents along the Gulf Coast.

Henri André Fourroux III

To Marie Marks,

This is my FOIA request. I want records beginning on April 20, 2010 to the present date March 24, 2011 and inclusive all dates in between the two fore mentioned dates of all permits issued for dispersants used in the Gulf of Mexico, near its shores and in its waterways and in all of the states that have shores on the Gulf of Mexico. I need the information to include for each permit: type of dispersant used for the specific type of oil cited, where the dispersant was used and how much dispersant was applied.

Per the laws governing an FOIA request and as listed on the NOAA webpage I expect a response in the proscribed timely manner.
