

Disclosure Review Board Minutes
3/14/05

1. NCVS disability questions

The verbatim answers should not be attached to the microdata. They should be given to the sponsor and collapsed first before attaching them to the microdata. There must be at least 3 unweighted cases of a given condition listed in variables 933, 934, and 935 (combined) for the condition to be shown. Otherwise that condition must be collapsed with something else until the threshold is met.

2. Veterans Affairs additional table

This was approved. The data will be rounded as all Census 2000 special tabulations. There must be at least 3 unweighted veterans in the 85+ age group in a given county for the data to be shown. Otherwise, that category must be collapsed to 65+.

3. 0391_(b) (6)

(b) (6) will send us the tables.
