

Disclosure Review Board Minutes
1/30/06

1. STP_299 (b) (6)

This was approved. There must be at least 3 unweighted cases from 3 different households for each language in a given geographic area for the data to be shown. The data will be rounded as all Census 2000 special tabulations.

2. 2003 NSCG — 2003 Industry Codes

This was approved given that each code meets the 10,000 threshold nationwide.

3. 2003/2004 Annual Profile of U.S. Exporting Companies

This was approved.

4. NCVS revision to add computer crimes

This was approved given that the amount of money lost due to the computer crime is topcoded using the ½% - 3% rule and rounded or put into categories. (b) (6) will send out the rounding scheme from Census 2000 to see if Board members feel it is appropriate.
