

Disclosure Review Board Minutes  
9/10/07

1. 0509\_ (b) (6)

This was approved.

2. 0412 (b) (6)

This was tabled. (b) (6) will make sure that the tables are specified correctly. He will see if the data provided are weighted or unweighted counts. He believes that they only want to release the weighted values.

3. Rounding dollar values in all public use microdata files from Title 13 data (no changes to internal files or Title 15 data)

More work needs to be done before we can make a decision. (b) (6) will provide us with a distribution showing how respondents already round their data. (b) (6) will check on calculations of other related variables such as poverty (done before or after rounding?). (b) (6) and (b) (6) will gather information on surveys and specific variables for which this may cause a problem and will propose a rounding scheme to address such problems.

4. CPS ASEC 2007 (b) (6)

This was approved.

5. ST075-18

This was approved. The data will be rounded as all ACS special tabulations.

6. ACS (b) (6) Orleans Parish

This was approved via email. The data will be rounded as all ACS special tabulations. There must be at least three people from different households for a given universe and for each characteristic (inflow, outflow, and non-migrant) for the data to be shown. Otherwise, the data must be suppressed and complementary suppression applied or the data must be collapsed until the threshold is met.

7. CPS ASEC March of Dimes

This was approved via email.

8. STP\_352 (b) (6) revision

This was approved via email. The data will be rounded as all Census 2000 special tabulations. There must be at least three unweighted children in each universe and each ZCTA for the data to be shown. Otherwise, the data must be suppressed and complementary suppression applied or the data must be collapsed until the threshold is met.
