

Disclosure Review Board Minutes

01/04/10

1. HUD request for housing assistance program flag

We had several questions for HUD. What are the proposed groupings and what percentage of cases fall into each? Do any programs identify additional geography? What variables are on their files that might be matched to ours? Does (b) (6) know anything about HUD's files? Longitudinal data might be a problem if it shows changes in programs. (b) (6) (HUD) can attend one of our meetings to help answer these questions.

2. SIPP panel wave 3 topical module fix

This was approved.

3. (b) (6) 891

This was approved.

4. Response rate request

This was approved via email on 1/5/10. The data will be rounded as all Census 2000 special tabulations.
