

## Disclosure Review Board Minutes

3/1/10

Attendees: Marie Pees, Arnie Reznick, Jason Lucero, Mark Asiala, Phil Gbur, Phil Steel, Rebecca Rubiera, Tom Blatt, Laura Zayatz, guest: Dave Raglin

### 1. (b) (6)

The DRB is fine with some synthesized tables and some not synthesized tables, as long as this does not create a disclosure problem. Any tables that are not synthesized would be treated as a regular special tab, and thus would need to be rounded. Based on comments received after the meeting, variables were divided into 2 categories as below. This does NOT mean one set will be synthesized and one set will not. It is only meant to give (b) (6) an idea of DRB's main concerns as they begin their research.

#### Variables of Most Concern

Age  
Earnings  
Industry  
Length of residence  
Minority status  
Occupation
