

Disclosure Review Board Minutes

7/23/07

1. ACS 2006 PUMS (part 2)

Part 1 was previously approved. This second (and final) part was approved. (b) (6) made sure that people in a given Group Quarters can in no way be linked to each other, and that property taxes will be shown in approved ranges.

2. “New” Veterans Administration request for ACS 2004, 2005, and 2006 data

This was approved. The data will be rounded as all ACS special tabulations.

3. NCHS file

We have not yet received a formal request, but (b) (6) gave us background information.

4. 2004 ACS Mail Respondent Characteristics

This was approved.

5. NSCG and NSRCG 2006 Replicate Weights

It was noted that the NSRCG is collected under Title 15 and is not under our purview. The NSCG Title 13 request was approved.

6. A continuation of the 0524 (b) (6) request

Simply deleting some counts of concern between the internal and external topcodes does not seem to solve the problem (details to remain confidential). We may need to fold some categories into some other categories but must make sure that values of concern cannot be obtained through addition and subtraction.
