

Disclosure Review Board Minutes  
1/3/05

1. ACS base tables

Tables including the following variables are not to be shown below the tract level:

Ancestry  
Citizenship  
Race  
Ethnicity  
Disability  
Foreign Born  
Poverty  
Unmarried partners  
Ability to speak English  
Group quarters

Also, tables with more than 100 cells are not to be shown below the tract level.

Each category for a given variable must have at least 10,000 people nationwide.

DRB rules for means, aggregates, medians, and other quantiles will be applied.

Ancestry will not be crossed with any other variables.
