1. AHS 2009 Remodeling

This was approved. DRB rules for medians will be applied.

2. Susan Bucci's question on ratios

If all 3 pieces (both numerators and the denominator) pass disclosure rules, then the ratios can be released. Otherwise, they cannot.

3. VA special tabs for new ACS data

This was approved. The data will be rounded as all ACS special tabulations. There must be an average of three unweighted cases per cell in a given table for the data to be shown.

4. NCVS regression results

This was approved.

5. HUD FMR

This was approved. The data will be rounded as all ACS special tabulations. DRB rules for medians and quantiles will be applied. The zipcodes should be pulled from the same extract as block codes. At this point, SEVRA areas should not be shown for the count tables. If there is a desire to show them in the future, the Board needs more information concerning these areas.

6. NCHRP 08-79 variance estimation

This was approved.
