

Disclosure Review Board Minutes  
4/2/07

1. (b) (6) STP-334

This was approved. The data will be rounded as all Census 2000 special tabulations. They will combine the age groups 16-19. There must be either 0 or at least 3 unweighted counts in each age group in each county for the data to be shown. Counties not meeting this threshold will be combined with other counties until the threshold is met.

\*\*\*\*\* Note: Following the meeting, the sponsor requested that the ages 16, 17, 18, and 19 not be combined, and that only the threshold of 3 be applied, realizing that more counties will have to be combined. A vote was taken by email, and this was approved.\*\*\*\*\*

2. Block level Commuting Journey To Work data

This was approved at the block group level (denied at the block level). The data will be weighted. (b) (6) will let (b) (6) know if this is considered a special tab and thus will be rounded.

\*\*\*\*\* Note: Following the meeting, (b) (6) relayed the information that these data are already available in the CTPP package at the block group level (already rounded). \*\*\*\*\*

3. Paper for Puerto Rico Public Health Conference

This was approved. DRB rules for medians will be applied.
