

Disclosure Review Board Minutes

5/2/11

Attendees: Marie Pees, Laura Zayatz, Philip Steel, Judy Eargle, Arnie Reznick, Rebecca Rubiera, Susan Bucci, Mark Asiala

1. SAS program, U of Minn, SIPP

This was approved via email after the meeting with the caveat that libname and other physical locations of the data are removed.

2. 0755 **(b) (6)**

This was approved. There were no disclosure issues, but some other things should be checked out and cleaned up such as changing "PUMA" to "county," changing variable names, checking AFF for consistency, and checking some of the more odd looking tables such as 37, 97, 99, 105, etc.

3. Occupation and Geography, SSA

Nothing is released at the block level from ACS. For block groups, the most detail for occupation is approximately 15-20 categories (not 500).

4. Census response and return rates

Laura will search for old memos on this topic and distribute them to the DRB.

5. Quarterly Plant Capacity

They should use the same suppression rule as the CIRs.
