1. Memo from (b) (6)

This was approved with some edits. The word “applied” should be replaced by “required” for the threshold in the bullets on part A and part B of the tables. Medians should be added to part A because they will be generated from a distribution like other special tabulations. (b) (6) and Laura will check on any threshold/topcode requirement for Vehicles Available. Table 7 (which currently says workplace and same as tables 1-6 above) will be expanded to say Tables 7-12 (same as tables 1-6 above but for workplace). Other tables will be re-numbered.

2. ACS Waiver for Table B19080

The waiver is approved for the 1 and 3 year data products with no threshold. There must be at least 50 unweighted cases in the universe in a given geographic area for the current 5 year product. The waiver is only for this year. The correct disclosure avoidance procedure/rule will be applied next year.

3. ACS 2006-2008, 2008 Report 90+ in the US

This was approved.

4. Census 2000 VA Planning for 2007-2009 ACS

This was approved. The data will be rounded as all Census 2000 special tabulations. There must be at least 3 unweighted cases of veterans in a county for the data to be shown.
