(b) (6)

1. ACS national request for people speaking Pacific Island languages

This was approved. There must be three unweighted cases in three different households for the data to be shown. The data will be rounded as all ACS special tabulations.

2. Two ACS PRB requests

These were both approved. The data will be rounded as all ACS special tabulations.

3. ACS 2009 Briefs

This was approved. DRB rules for quantiles will be followed.

4. ACS revised weighting for GQ people

This was approved. The Board would like to see further work done to address outlier weights in the future.

5. CPS/adrec data on self-employment for BEA

This was approved. Values of less than three will be suppressed. The total line will be fixed to include suppressed values. Judy has followed up with Rebecca since the meeting to address any additional issues.

6. Graph of potential function to decide how much to let a population size decrease for repeat requests

This was approved. Laura will document this in a memo for the record.

7. Jason's graphs on rank swapping for CPS

This was tabled because most people did not receive them yet.

8. Public use file for the special AHS survey of New Orleans (2009 AHS-NOLA)

This was approved.
