Disclosure Review Board Minutes
2/12/07

1. ETA (b) (6)
    There must be either 0 or at least 3 or more cases in each universe for the data to be shown (no 1s or 2s).

2. ACS paper for PAA
    This was approved.

3. ST086
    This was approved. The data will be rounded as all ACS special tabulations.

4. NYCH&VS medians
    This was approved. (b) (6) will call (b) (6) to make sure the count of 1 will not appear. They must follow DRB rules for medians (interpolate or for point medians, based on 10 or more observations).

5. Tabulation for New Orleans
    This must be revised. For each area published, there will be at least 300 unweighted cases, post Katrina. They should reduce to 1 table with 1 set of races and income.

6. ACS ST031
    This was approved. The data will be rounded as all ACS special tabulations. They will only show countries that appear on the 5% PUMS file.

7. ACS GA IT
    This is tabled until we get answers to (b) (6) questions.

8. Information from the Dept. of Education
    They are working to calculate and publish scales on poverty. They will combine areas to meet a minimum cell size.

9. CA zcta publication
    Apprise will return the data. They may ask for a revision based on income by size.

10. (b) (6) will add questions on synthetic data to the checklist.
